

Blaze Audio announces Ci Loudspeakers Series

Blaze Audio, a manufacturer of professional audio solutions for the installed sound market, announces that its eagerly awaited Ci series loudspeaker product line is now available globally. The Ci series was acquired earlier this year from Cornered Audio ApS of Denmark and make an ideal match for use with Blaze Audio's PowerZone amplifiers, software, and controllers. The new Ci series of products - the Ci2, Ci4, Ci4-V, Ci5, Ci5-V, and CS8 and CS12 subwoofers - are designed for use in commercial and hospitality locations. These surface-mounted loudspeakers make for a discrete and elegant installation while offering superior sound reproduction with wide and uniform coverage, clarity, and reliability.

The IP-rated Ci series is a feature-packed family of acoustically superior 2-way full-range loudspeakers that are designed for a wide range of indoor and outdoor commercial applications such as retail stores, restaurants, cafes, and meeting rooms. The patented 90° triangular ABS cabinet with built-in sliders fits perfectly into vertical and horizontal corners and can be coupled together to increase coverage to 180° or 270°. For enhanced bass performance, the Ci series' loudspeakers can be teamed indoors with the series' C8S and C12S subwoofers.

Key attributes of the Ci series by Blaze Audio include:

- Triangular ABS cabinet design for vertical and horizontal corners.

Blaze Audio announces Global Availability of its Ci Series Loudspeakers

Wednesday, 16 October 2024 19:16
