

LEaT X 25: A Complete Success

On 19 and 20 March 2025, LEaT X 25 turned the Ofenwerk Nuremberg into the central meeting place for the event technology industry. With over 1.000 participants, over 100 top brands and a mix of networking and inspiration, the event was a complete success. “The response to LEaT X 25 was overwhelming. The combination of an exclusive setting, a targeted trade audience and first-class exhibitors struck a chord with the industry,” says John Weltersbach, Head of Event Operations at LEaT and new to the team since the beginning of the year. The 38 exhibitors at LEaT X 25 offered visitors a unique opportunity to exchange ideas directly with leading industry representatives, establish new business relationships and discuss current market developments. The informal atmosphere of the LEaT X formats makes it possible to establish valuable contacts and learn about innovations first-hand.

The exhibitors were also enthusiastic about the unique atmosphere at LEaT X 25:

- “LEaT X is always a great event for us. Excellent organisation and quick solutions, a big compliment to the team. We like the familiar environment and the very friendly audience.” - Manuel Hahn, Claypaky
- “LEaT X in Nuremberg: excellent event, great networking, good discussions.

LEaT X 25: A Complete Success

Monday, 24 March 2025 18:00

We met many interesting visitors that we haven't seen at a trade fair for a long time. We'd love to come again!" - Philipp Wrede, dBTechnologies

- "LEaT X is a small but excellent trade fair - great people, great contacts, simply two great days. We are delighted to be here." - Thomas Schild, LMP Lichttechnik

On the evening of the first day of the event, LEaT X hosted a get-together in the special industrial and vintage car setting of the Ofenwerk Nuremberg. In a relaxed atmosphere, exhibitors and visitors were able to round off the day with drinks, music and good conversation.

Following the success of LEaT X 25, LEaT con 25 is the next major industry event. The exhibition will take place from 14 to 16 October 2025 in Halls A1 and A4 at Messe Hamburg. The expanded space will create additional opportunities for exhibitors, a more comprehensive education programme and new synergies between the ProAV and event technology markets.

Facts
