

ADDAC System ADDAC901MM

ADDAC System has announced its latest Eurorack frame, ADDAC901MM, or the Mini-MONSTER. Mini-MONSTER, which is available now and ships assembled, is the latest addition to the ADDAC family of MONSTER racks, measuring 18.5" (47cm) x 22.4" (57cm) x 18.1" (46cm). As the 'smallest' member of the ADDAC MONSTER rack family, Mini-MONSTER is a little powerhouse featuring 5 rows (15U) x 85HP of rack

ADDAC System Announces its Mini-MONSTER Eurorack Frame

space.

Sharing a similar aesthetic design as its larger siblings, the Mini-MONSTER rack is a classic plug and play frame constructed in aluminum with sidings in 18mm poplar plywood with a Wenge venner. It features a left-hand side AC socket, robust side handles for transporting and a total of 5 busboards (one per row) — each loaded with 19 connectors.

The Mini-MONSTER rack is able to handle Eurorack modules of just about any depth, with a maximum depth of 150mm on the third row. Power-wise, the rack is specified at 7000mA on +12V and 7000mA on -12V, and +5v is available on all busboards.

Specifications and features

- 15U (5 rows)
- 85HP wide
- Left Side AC Socket
- Side handles
- 5 busboards (one per row) each with 19 connectors

Module maximum depths:

- Top Row: 90mm
- Fourth Row: 120mm
- Third Row: 150mm
- Second Row: 95mm
- Bottom Row: 55mm

Power specifications

- 7000mA on +12V
- 7000mA on -12V
- +5v available on all busboards
- Draws from +12V, 500mA max per busboard
