

AES Educational Foundation Announces Awardees for the 2021/2022 Academic Year

Annual grants and scholarships continue to help audio students realize their full potential

The Audio Engineering Society Educational Foundation has announced the

awardees of AES Educational Scholarships and Grants for Graduate and Undergraduate Studies in Audio Engineering. “The AES Educational Foundation was established in 1984 to encourage talented students to enter the profession of audio engineering,” commented AES Education Foundation president Jim Anderson. “Annually, we give grants for graduate studies with emphasis on audio in its many forms. The recipients are selected based on their demonstrated talent, achievements, goals and recommendations. The AES Educational Foundation’s grants are made possible by a host of contributions from benefactors, including from manufacturers Audio Precision, Dolby, Genelec, L-Acoustics and PMC, and from the families of John Eargle, Mary Lea Simpson, Emil Torick, Bruce Swedien, and Larry Estrin.” The Board of the Audio Engineering Society Educational Foundation is pleased to name the scholarship awardees:
