

BFD Drums BFD 3.5

BFD Drums today announces the release of BFD 3.5 - the latest evolution of FXpansion's flagship acoustic drum studio software. BFD 3.5 builds upon its legacy as a premier drum production tool, introducing an enhanced engine and best-in-class features designed to push realism and sonic customization even further. With an intuitive redesigned workflow, this latest update offers musicians and producers more precision, flexibility, and depth in their drum tracks than ever before. BFD 3.5 introduces stunning new kits, mix-ready presets and advanced modeling technology for tom resonance and cymbal swells, offering uncompromising detail. Furthermore, the revamped interface incorporates a new mixer and sound browser for the easiest BFD experience yet.

BFD Drums releases BFD 3.5

Thursday, 06 March 2025 17:14

BFD 3.5 also introduces Apple Silicon AAX support, cross-platform VST 3 compatibility, and a new Microphone Inspector panel. Users can also benefit from feature-rich parameter controls, enabling them to fine-tune every detail of their drum kits with precision.

BFD 3.5 takes virtual drumming to the next level with enhanced realism, precision, and control. Featuring an expanded core library, mix-ready presets, advanced drum modeling, and seamless Apple Silicon AAX & VST3 support, this update delivers the most dynamic and customizable drum production experience yet.

New Updated Features include:

- Core library featuring 51 kits - A vast selection of drums to suit any genre, from rock to jazz to metal.
- 60 mix-ready preset BFD kits - Pre-configured kits with custom parameters, articulations, and effects for instant polished sounds.
- Drum Editor's Tech, Model, and Mic sections - Fine-tune every drum's tuning, damping, and mic placement for precise sound shaping.
- 82 Groove Palettes + dozens of grooves - Instantly add human feel and realism to drum tracks with professionally crafted patterns.
- 48 high-quality audio effects - Built-in mixing tools, including 13 AIR Music Tech effects, for professional-grade drum processing.
- Flexible multi-mic control - New 'Mics' panel allows users to fine-tune individual microphone levels and placements.
- Revamped GUI - A refreshed interface with improved navigation, icons, and readability.
- Apple Silicon AAX & VST3 Support - Optimized performance across both Mac and Windows platforms.

Formats

- macOS: AU, VST, VST3, AAX.
- Windows: VST, VST3, AAX.

BFD 3.5 is now available for an introductory promo price of \$59.99 (regularly \$199.99) until Thursday, April 3rd. Plus, users can enjoy up to 50% off BFD expansion packs for a limited time. All sale items can be found here: [BFD Drums - Sale Page](#). A free 10-day demo can be downloaded from the [BFD 3.5 Product Page](#).
