

Breaking 25,000 Tone Models on IK Multimedia's ToneNET

IK Multimedia announces that ToneNET has soared passed 25,000 TONEX Tone Models posted by users, becoming the fastest-growing tone-sharing community ever. Any of these Tone Models can be used throughout the TONEX Ecosystem: record using TONEX or AmpliTube 5, perform live with TONEX Pedal, or play on the go with the TONEX app.

To celebrate this milestone, IK is giving away a TONEX Pedal to 5 lucky winners. Just download at least one of the 25,000+ Tone Models for a chance to win. You can do this within any version of TONEX software including our free version, TONEX CS. The deadline for participating is March 13. Winners will be drawn at random and announced here on March 14.

This is an amazing achievement and represents a ton of great tones for guitar and bass players to explore. Users who haven't yet tried TONEX can visit ToneNET right now and start checking out the tones and listening to demos, even without an account.

A complete ecosystem of TONEX software and hardware products is available from the IK Multimedia online store and from IK authorized dealers worldwide.
