

## InMusic AIR Jura

AIR Music Technology today announce Jura, a meticulous recreation of a revered synth, first released in 1982. However, Jura takes a new approach and offers both a faithful emulation and a modern take on the synth. Available in plugin, standalone, and also for use in selected Akai MPC hardware, this is the synth of 82 reimagined for use in future hits.

### AIR Jura - At A Glance

- Switchable between Classic / Expanded controls
- Oscillator section with pulse, saw, sub and noise waveforms
- Create classic pulse width modulation sounds using manual control, LFO or one of two envelope modulation sources
- Filter section including VCF section with cutoff, resonance, saturation and drive
- Filter modulation via invertible envelope, LFO, keyboard and velocity tracking
- High Pass Filter (HPF) filter control
- VCA section with gate / envelope modes, plus velocity tracking
- Two ADSR envelopes
- BPM syncable LFO including eight shapes including two random generators as well as Speed, delay and ramp controls, re-sync and manually triggerable via LFO trigger button
- Classic Juno Chorus section - three modes with mix control

- Comprehensive Delay, Reverb and 3-band EQ section
- Analog character knob
- Detune-able unison and editable chord modes
- Modulation wheel and pitch-bend controls
- Glide controls
- Arpeggiator

### AIR Jura – Highlights

- Two workflows; the original front panel design, plus an extended, modern UI that gives the user even more ways to tweak the sound.
- Extras under the hood include a VCF with saturation and drive, two DCO noise types; modern and vintage. There's a second envelope, not found on the original, to help further craft the perfect sound. In addition to the chorus' which includes a mix control, there's a powerful delay, reverb, and EQ circuit.
- As well as the authentic 6 voice mode, there's increased polyphony, as well as Unison and Chord modes.
- Those with qualified Akai MPC/Force standalone versions, get complete touch control of every parameter.

### Formats

- MacOS: AU, VST, VST3, AAX
- Windows: VST, VST3, AAX
- Akai MOC/Force standalone

AIR Jura is available now priced \$74.99 until 13th June 2023. The normal price will be \$149.99. A free 14 day demo can be downloaded from the website below.
