

KEMPER Amps & ZILLA Cabs Collaboration

Kemper and Zilla today announced the immediate availability of Zilla 2x12" guitar cabs loaded with the acclaimed KEMPER KONE speaker. Zilla offers a variety of customization to the customers. On the dedicated Website, customers can choose material, color/tolex, size, and much more. Sometimes, when there's no PA, there's just a drumkit and a bass amp. When the creative juices flow and the riffs have to

bounce back off the wall - that's the moment when you long for a powerful guitar cabinet.

A guitar cabinet that provides „that“ well-known feel and gives you that kick-in-the-back experience. Because guitar cabinets can move some serious air. But these days cabinets also have to be comprehensive and modern in terms of being capable of delivering the dynamic and tonal nuances of the KEMPER PROFILER. So here it is: The ZILLA 2 x 12“ upright slant KONE cabinet.

These cabinets are designed in cooperation with the KEMPER sound designers and the great people from Zilla. Beauty is created out of decades of experience in building the finest guitar cabinets for the biggest guitar masters in the UK and the world over, combined with the digital guitar tone wizardry from the KEMPER labs. Loaded with the exquisit KEMPER Kone speakers. Now Kemper and Zilla bring this beautiful and powerful dream team for playing, rehearsing, and performing to the guitar players.
