

Audeze MM-100

Audeze, in collaboration with 17-time Grammy-winning engineer/producer Manny Marroquin, announces the new MM-100. Their newest full-sized headphone, MM-100 is built and tested in our Southern California workshop with the same dedication and precision as our flagship models.

Audeze introduces the MM-100

Thursday, 13 April 2023 20:10

MM-100 sports all-new planar magnetic drivers designed for class-leading detail and low distortion. The premium chassis is built for comfort and durability, featuring aluminum, magnesium, spring steel, and gel-filled leather earpads. MM-100 includes a versatile single-sided cable with adapter, for convenient connections to all of your gear.

The MM-100 is available for pre-order now, with first shipments expected in June 2023. Find out why top audio professionals worldwide rely on Audeze headphones. Upgrade your workflow with MM-100 and never miss a single detail.

Get the exclusive first chance to demo MM-100. Visit Audeze at:
