

SPL MTC Mk2

Next generation Monitor & Talkback Controller

With the MTC Mk2, SPL introduces the successor of the MTC monitor controller. The classic SPL MTC has been updated with new features adapting it to the demands of modern music production environments.

Advanced source and speaker selection, multiple monitoring modes, an integrated premium talkback system, headphone amplifiers with Phonitor Matrix, an additional input for a dedicated artist mix and an internal audio operating voltage of +/-18 volts make the MTC Mk2 the next generation Monitor & Talkback Controller.

SPL MTC Mk2 - Next generation Monitor & Talkback Controller

Monday, 25 April 2022 07:00

“The MTC Mk2 offers a lot more than just the standard feature-set of a monitor controller. Besides a premium talkback system, one of its game changing new features is the SPL Phonitor Matrix, which enables the engineer to also create perfect mixes on headphones.” - Hermann Gier, Managing Partner

The recommended retail price for the MTC Mk2 Monitor & Talkback Controller is: 1,299 €. The MTC Mk2 will be available from April 25, 2022.
